

# 25MM WAVE ROD & COMPONENTS

25mm Wave Rod is designed to take the S-wave glides w/pocket tape heading and the S-fold glides w/stud tape heading.

25mm Wave Rod will also take the larger standard glide (32/35).

Bracketing for this Rod is:

- Single : as shown below
- Double : based on Versatrak Combo Bkt B, etc. (MK1 style)
- Double : MK2 style brackets are available for those heavier drapes
- Top Fix : using same as 32/35mm top fix brackets
- Concealed Fixing is available for all face fix brackets

Finials available are the same as 25mm Versatrak.

The 25mm Wave Rod is available in continuous 6 meter lengths. When installations exceed 6 meters, tracks need to butt together.

There are no 90° angle elbows available – rod cannot be bent.

Colours available:

- White
- Orbital Silver
- Riverstone

All other colours will need to be powdercoated and a surcharge will apply.

25mm Wave Rod w/Plain Cap and Medium Ball finials
