Rod:
32mm Square Rod with S-fold
- RIVERSTONE

Curtain:
S-fold stud tape

S-FOLD TAPE & COMPONENTS

S-fold consists of: GLIDES, TAPE & PENDANTS.

S-fold tape is available in either CLEAR or WHITE. It measures 25mm wide and has metal studs along the length.

S-fold tape sits 5mm below the 32mm & 35mm rods.

S-fold glides and pendants are available in both WHITE and BLACK plastic.

This is a three-piece option consisting of the backing tape (25mm wide) which is sewn to the fabric, the workroom or installer then presses the pendant onto the stud, which is then secured into the glide at installation (double snap).

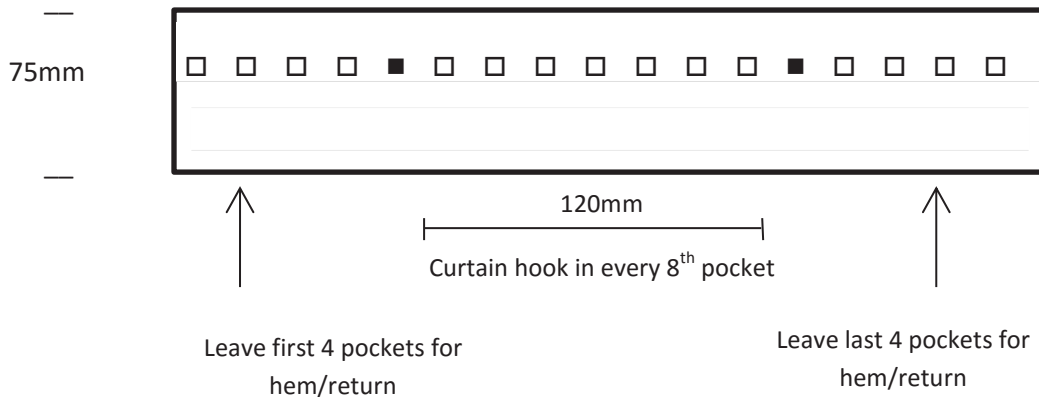

S-FOLD GLIDES & PENDANTS

S-FOLD GLIDES & PENDANTS
- 35MM RIVERSTONE ROD
W/END CAPS

S-WAVE TAPE & COMPONENTS

S-wave consists of: GLIDES, TAPE, HOOKS & PENDANTS.

S-wave tape is available in CLEAR only. It measures 75mm wide and has pockets along the length.

S-wave tape sits 5mm below the 32mm & 35mm rods.

S-wave glides are available in WHITE and BLACK plastic.

S-wave hooks and pendants are available in WHITE only.

Once the tape is sewn to the fabric, a plastic hook is inserted into the pockets as shown above (leaving the first 4 pockets for hem / return and then every 8th pocket, again leaving the last 4 pockets for hem / return).

Please Note:

- Not all fabrics and curtain sizes are suited to wave curtains.
- A maximum curtain weight of 4kg per metre of rod is recommended for clear wave tape.

32MM SQUARE & 35MM BRACKET RANGE

MK2 100MM BRACKET
